### Bunker Hill Day.

Boston, June 17.—With the ringing of bells, the hoarse boom of cannon and the firing of immense bonfires, old Charlestown this morning opened its celebration of the 134th anniversary of the battle of Bunker Hill. A general holiday is being observed in Boston and vicinity and the day is given over to sports, noise, parades and merriment. Sailors and marines from Charlestown Navy Yard and soldiers from the forts in the vicinity of Boston took part in this afternoon's parade.

An interesting feature of the anniversary observances was the placing of a wreath on the model of the original monument erected on the site of Bunker Hill Monument, by King Solomon Lodge of Masons, the lodge which first made efforts to secure a fitting memorial of the battle. It was in December, 1794, that this lodge erected at Tuscan pillar of wood, 18 feet high and eight feet square and surmounted by a gilt urn marked "J. W. A. E. 34." The monument cost about \$1,000 and it was the model of this memorial that was decorated by the present members of the lodge.

wrong doing, which it could not exercise in a summary manner if it were an incorporation of the Exchange, does so in the expectation that the Exchange will in the future take full advantage of the powers conferred upon it by its voluntary organization, and will be active in preventing wrong doing such as has occurred in the past

Then we believe that there will be no serious criticism of the fact that it is not incorporated.—If, however, wrongdoing recurs, and it should appear to the public at large that the Exchange has been derelict in exerting its powers and authority to prevent it, we believe that the public will insist upon the incorporation of the Exchange and its subjection to State authority and supervision."

Investigation shows that on one active day 52 per cent of the total transactions apparently originated in New York City and 48 per cent in other localities.

Dysart, of the Children's Home Society of Wisconsin when referred to the system just inaugurated by a New Jersey association. are in a position to more fully ascertain if the home is suitable for the child."

Here is the sort of child, according to authorities, which is in most demand: "A light haired girl, between the ages of 6 months to 3 years."

"Persons who want children," said a delegate, "state the desired age, sex and color of hair and eyes, and usually draw the line against some nationalities. Girls are three times as popular as boys, and the light haired baby is in most demand."

"We advise parents to tell the little folks in a nice way that they are not their real father and mother, as soon as the child is old enough to understand. If this is done the children are at once at peace on the matter, but otherwise, the truth usually comes out through some angry playmate and the result is a shock."

Today is the anniversary of the battle of Bunker Hill, and a great day in New England, being celebrated with the importance the occasion demands.
